

Company portrait: Hödlmayr International AG

Hödlmayr International AG specializes in the entire supply chain - from receiving vehicles from the factory or port of entry to delivering them to the vehicle dealer, fleet owner or private end customer. In addition, the Hödlmayr Group offers its automotive customers various special services for the “refinement” of vehicles.

Hödlmayr operates in 16 countries and has one of the largest European logistics networks in the automotive segment

Currently, 1,600 employees are employed in 16 countries within the Group. The head office is located in Schwertberg/Upper Austria. In total, the Group has 570 special vehicle transporters, its own block train concepts and storage area for 55,000 vehicles. Around 1.7 million vehicles are delivered annually. Hödlmayr operates as a releasing agent in four car factories and handles 340,000 new vehicles per year. This makes Hödlmayr one of the most important European players in the automotive industry and generated sales of EUR 290 million in 2022.

For Hödlmayr, sustainable growth means expanding its strong market position in Europe and securing it for future generations. To this end, continuous investments are made in sustainable and innovative mobility concepts and in the infrastructure for alternative drive technologies. In addition, special offers are provided for car sharing and fleet providers as well as home delivery for end customers.
